Re: Essential work status of Gardenzilla Ltd.

To whom it may concern,

We understand that our team may be stopped and asked whether they are performing an essential service. Due to social distancing guidelines, I am asking that those questions be directed to our office at (647) 461-0285, or support@gardenzilla.ca.

However, I am also providing the following information as a resource for my team, and for them to share should circumstances require it.

We confirmed our status as an essential service on Friday, April 3rd, following the implementation of increased restrictions on the definition of essential services. Specifically, we have sanction to perform the following - and only the following - services -

- lawn mowing
- garden maintenance
- shrub/tree pruning and seasonal care
- debris cleanup and disposal

These services are permitted under section 20 of the updated list of essential services, which I confirmed via the official government inquiry line.

All other services have now been suspended.

Above all else, we are listening and responding actively to this crisis, and have implemented strict controls to maintain social distancing and hygiene in the workplace, including providing each of our staff with their own dedicated vehicle and equipment.

If you have any questions or concerns about our decision to have staff out during the pandemic, I would welcome them. We continue to update our position daily, and are doing our best to protect our staff and customers as we support the global effort to limit the spread of Covid-19. We wish you and yours the best under these very difficult circumstances.

Warm regards,

Michael Chudy,
General Manager,
Gardenzilla Ltd.
